

LABORATORY COLD CHAMBER

Features

- Operating voltage 230V AC $\pm 10\%$, 50 Hz
- Temperature range: -40.0 to $+50.0^{\circ}\text{C}$
- **Option: Range: -70.0 to $+100.0^{\circ}\text{C}$.**
- Digital Temp. controller cum Indicator PID (RTD-PT-100 ,3Wire Sensor)
- 2Pole Rocker Switch cum Indicator for Mains ON/OFF.
- Indicators for Dry Heater & Compressor.
- Blower provided inside the Chamber for Circulation.
- Safety Thermostat provided.
- Time Delay for Compressor.
- Dry Heater Wattage: 500/1000W.
- 1Pole, 3Way Toggle switch to Control Compressor. (Compressor Continuous ON, OFF or AUTO)
- Glass Cartridge Fuse Holder with Fuse for Compressor & Dry Heater.
- Kirloskar Make Compressor.
- S.S.Wire Mesh -2No's.
- Top Loaded & also Front Loaded available.
- **Inner Made in Stainless Steel.**
- **Outer Made in M.S duly powder Coated.**
- **As per our Continuous R&D the specification may change.**
