

TEMPERATURE RISE TEST APPARATUS

TEMPERATURE RISE
TEST APPARATUS

TEMP. RISE CUM VOLTAGE
DROP TEST APPARATUS

Features

- To do the Temperature Rise of Bus Bars, Accessories, Appliances, Cables etc...
- Operating voltage 230V AC $\pm 10\%$, 50 Hz
- Temperature Indicator Range: Amb to 400°C; LC: 1°C; Accuracy: 1.0%.
- AC Current Source: 0.0 to 50.0AAC. (Low Voltage High Current Source)
- Digital True RMS Ammeter. Range: 50.0AAC; LC: 0.1A, Accuracy: 1.0%.
- 2Pole Toggle Switch for Mains ON/OFF.
- 1Pole Toggle Switch for Test ON.
- Cartridge Fuse Holder with Glass Fuse.
- Main ON & Test ON Indicators.
- Digital AC Voltmeter Range: 19.99VAC; Accuracy: 0.5% in Temperature Rise cum Voltage Drop Test Apparatus.
- Variac (Dimmer) provided to Vary the Current Source.
- **Option: Manufacturing upto 2000AAC as per Customers specification. Motorised Version is also available. Custom built item as per Customers Specification.**
- **As per our Continuous R&D the specification may change.**
